## PROGRAMME OBJECTIVES

**1**

The programme aims at fostering strong, internationally oriented higher education systems in *Central America* with the capacity to contribute to sustainable development. For this purpose, scholarships for development-related Master's or doctoral studies are awarded to individuals who plan to pursue a career in teaching and/or research at a higher education institution in *Central America, the Dominican Republic and Cuba*.

By training future academic and professional leaders, the programme contributes to the following **long-term impacts**:

- Qualified professionals' involvement in the solution of development-related problems in *Central America, the Dominican Republic and Cuba*
- Graduates strengthening education and research in *Central America, the Dominican Republic and Cuba*
- Structural strengthening and regional networking of partner institutions and partner universities

To achieve these long-term impacts, the following outcomes have been formulated as programme objectives:

**Programme objective 1:** Graduates have qualified to take over responsible positions in their or for their region of origin

**Programme objective 2:** The participation of women and underprivileged groups is reinforced

**Programme objective 3:** Organizational, financial and personal capacities of partner institutions are strengthened

As part of the „In-Region Scholarship Programme“, DAAD offers scholarships for Master studies. The programme is funded by the German Federal Ministry of Economic Cooperation and Development (BMZ) and aims at university staff in the first line, without neglecting the public sector demand of academically trained personnel.

The target group for scholarships are graduates from Central America, the Dominican Republic and Cuba with a first academic degree (Bachelor or Licenciatura) if applying for a Master's programme. The **In-Region scholarships** are aimed at students who want to participate in a study programme in Central America, in a country that is not their home country or a country for which they do not have a residence permit.

The awarding of scholarships will be subject to the provision of funds.
